The Privacy Rule is carefully balanced to provide strong privacy protections that do not interfere with patient access to, or the quality of, health care delivery. HIPAA has an impact upon how OPWDD and contractors will deal with protected health information of our consumers. Likewise, State Mental Hygiene Law § 33.13 requires disclosure of clinical records to be limited to that information necessary for health care providers to administer treatment.

Recognize and agree that any and all work performed outside the scope of the Agreement or without consent of OPWDD shall be deemed by OPWDD to be gratuitous and not subject to charge by the bidder.

"Contractor shall comply with the provisions of New York State Information Security Breach and Notification Act (General Business Law § 889-aa; State Technology Law § 208). Contractor's negligent or willful acts or omissions, or the negligent or willful acts or omissions of Contractor's agents, officers, employees, or subcontractors."

numbers. (Private data is considered unencrypted when either identifying information or the data element is not encrypted or is encrypted with a key that has been acquired).

The Act authorizes the State Attorney General to sue a business violating the statute in order to recover damages for actual costs or losses, including consequential financial losses incurred by persons entitled to notification. If a business engages in knowing or reckless violations, the court can impose a civil penalty of the greater of \$5,000 or \$10 per instance of failed notification up to \$150,000. The remedies provided by this section shall be addition to any lawful remedy available, possibly permitting private actions.

15. Consumer Safety Information

OPWDD provides services to individuals exhibiting Pica, which is a medical disorder characterized by an appetite for largely non-nutritive substances, e.g., cigarette butts, paper, gum, etc. Attention to the sanitation and cleanliness of the areas surrounding OPWDD's state operated program sites and residential buildings is very important to the health and safety of those we serve. Please ensure care is taken to properly dispose of cigarette butts and rubbish while on OPWDD property.

OPWDD property has special receptacles for cigarette butt disposal. Contractor and subcontractor employees shall use these receptacles and throw trash in garbage cans or dumpsters. Compliance with this policy is appreciated.

16. Consultant Disclosure

Effective June 19, 2006, contractors doing business with the State of New York in a “consulting” capacity will be required to file forms disclosing, by employment category, the number of persons employed by them and their subcontractors (if any) as a consulting firm or an individual consultant; the number of hours worked; and the monetary compensation received from the State of New York for work performed by these employees. Reporting will be required via the utilization of two separate forms – “Form A” and “Form B”.

In general, however, Form A is to be completed once upon initial contract award and is used to report “planned employment”. Form B is required annually and reports on “actual employment figures” for the preceding state fiscal year. The New York State fiscal year commences on April 1st and concludes on March 31st.

17. Evaluation Criteria: Method of Award

OPWDD will select the responsible and responsive bidder that will provide the lowest Total Estimated Seasonal Cost per site (bid amount). Total Estimated Seasonal Cost per site will be calculated on the total of thirteen snow removal events between three and six inches, six snow removal events over six inches, and twenty-three ice removal (deicer application) events for each location. Contractors may bid on one or both sites. A bidder may win one or both sites listed. All locations included in a site are to be serviced by the winning bidder. Only proposals judged to be responsive to the submission requirements set forth in this IFB will be evaluated. OPWDD reserves the right to reject any and all offers.

In the event of a tie bid, the award will be made by random selection.

Qualifications & Scope of Work

Bernard Fineson Developmental Disabilities State Operations Office (hereinafter "OPWDD") is requesting bids for snow removal and ice control services for the OPWDD campus in Queens County. The campus contains buildings, parking lots, sidewalks, and residences of a developmentally disabled population including some individuals who are medically or physically disabled, as well as some who are confined to wheelchairs.

It is extremely important that all efforts are made to have the locations accessible and safe for the individuals and staff. In order to have accessibility, snow clearing will commence **at the conclusion of a snowfall** event that has resulted in an accumulation of three (3) or more inches of snow at the contracted site. No service is necessary for snow accumulation of less than three (3) inches; however, the Plant Superintendent or other OPWDD staff has the right to call for additional service as deemed necessary for safety concerns.

Snow Removal & Ice Control Services

The Contractor must be able to provide snow removal services on a seven day per week, 24 hour a day basis, including holidays. Each site must be cleared of snow and de-icing products applied within four (4) hours after the last snowfall.

Snow Removal

Snow removal services are to begin automatically at the conclusion of a snowfall that has resulted in the accumulation of three (3) or more inches at the contracted site, however the Plant Superintendent or other OPWDD staff has the right to call for additional service as deemed necessary for safety concerns. The National Weather Service Local Storm Report App (<https://nwschat.weather.gov/lsr/>) will be used for the purposes of determining the accumulated snowfall totals at the conclusion of a storm in various areas of Queens County and thus which snow removal service, if any, is warranted. To use the NWS Local Storm Report App, go to the website and select [OKX] NEW_YORK for the NWS Office. The snowfall total closest to the contracted site will be used. On occasions where there is less than three (3) inches of snowfall and OPWDD has requested snow removal, the "Per Snowfall between 3 and 6 inches" price shall be used. At the conclusion of snowfall events that exceed three (3) inches, all maintained surfaces shall be cleared to bare pavement. Snow removal may be followed by the spread of deicer for ice control when appropriate or needed. OPWDD residents often require an additional level of care with regards to snow and ice removal due to functional mobility limitations.

The basic movement and/or plowing of snow shall be planned by the Contractor, however, the following guidelines must be adhered to:

- **All exits, fire escapes, and fire hydrants must be cleared of snow.**
- All snow and ice must be removed in a manner that allows safe passage and does not promote the buildup of ice and/or snow.
- Snow accumulation is to be cleared as detailed in the mandatory site visit and will typically include removal from: driveways, parking areas, stoops, sidewalks and/or ramps leading from the front door to the driveway; paths to and from all egress doors; walkways to storage sheds, oil fill pipe, generators, trash receptacles and/or evacuation areas; and the evacuation point, located on the property, but apart from the residence. All walkways/paths must be cleared wide enough to accommodate wheelchairs.

Invitation for Bid

- Plows cannot be used to clear sidewalks or walkways.
- Any **decks** that are designated as an egress path shall be cleared a minimum of 6' wide from egress point to the evacuation point as identified by the site manager. Snow is to be removed from the deck.
- Snow shall not be pushed against houses, vehicles, buildings, building entranceways, sidewalks, exit doors, fire hydrants, trash receptacles, garage doors, shrubbery, trees, lamp posts, or emergency generators and fences.
- Banking of snow shall be limited in height to not restrict visibility at the entrance to the roadway.
- Care must be taken not to damage or push snow on adjoining properties. Snow must not be piled up or blown in front of neighbor's property or public streets.
- Mailboxes **MUST** be shoveled out to allow for mail delivery.

Ice Control

Driveways, parking areas, walkways and fire escapes, sidewalks, stoops, paths, decks, stairs for egress, paths to generators, paths for oil delivery, and path to trash receptacles must be kept clear of ice as detailed by instructions given in the mandatory site visit. In order to provide de-icing services when there is no snowfall, the Contractor must receive permission to proceed from the OPWDD maintenance unit mechanic on call or appropriate maintenance supervisor (Maintenance Department 718-217-2333; Safety Unit Front Desk 718-217-2282)

Rock salt cannot be used for de-icing. Ice Fighter Plus-50# (Morgro Inc., Manufacturer item number: 155032) or equivalent material shall be used for de-icing. The Contractor shall submit the specifications of equivalent material to the Plant Superintendent's Office for approval prior to the usage of equivalent material. Sand may be combined with an approved ice control product; however, the ratio of sand to ice melt material should be no more than 50/50. This ratio can only be changed by an OPWDD representative, based on the effectiveness of the last application/event.

Contractor may be requested to perform de-icing services by OPWDD maintenance staff as deemed necessary for safety concerns.

Equipment & Staff Requirements

Contractor shall provide all labor, tools, equipment, and materials necessary to professionally execute the work. All equipment used in this service must meet the manufacturer's safety requirements and be properly installed and functional. All vehicles and equipment must be operated in a safe manner. Contractor shall prepare sufficient quantity of snow removal equipment, such as plows, blowers, spreaders, and non-corrosive ice melt material.

Contractor must use sufficient size plows; and have commercial quality sand/ice melt spreading equipment to remove snow and ice from the driveways and parking lots at the locations. Manually broadcast spreading with a shovel from the bed of a pick-up truck does not provide sufficient coverage to driveways and parking lots. Only qualified operators and proper equipment will be used along with special efforts to prevent abuse and damage to surfaces of paved roads, walks, curbs, barriers, landscape effects, and grass areas.

Contractor must be able to show that they have adequate staff and equipment to accomplish the snow removal and ice control services within the four (4) hour snow removal and de-icing completion time limit.

The Contractor must attend a kick-off meeting with the Plant Superintendent before starting the contract. This meeting will be scheduled after the Contractor is awarded an approved contract.

Fines

At locations that share a boundary with a municipal sidewalk, all snow must be cleared from the length of the municipal sidewalk for which that site is responsible. No sidewalks shall be blocked by snow banks. **Any fines, penalties, or assessments received as a result of failing to clear these walkways are the responsibility of the Contractor.**

Vehicle Removal

Under no circumstances shall the Contractor move any staff owned or State- owned vehicles. It is highly recommended that the Contractor call the Safety Office (718-217-2282) thirty (30) minutes prior to arrival to give staff time to move the vehicles. It is to be noted that there may be occasions when staff are unable to move vehicles. The Contractor is to do the best they can, given the circumstances. The Contractor is not responsible to shovel out vehicles.

Snow Plow Damage

The Contractor shall be responsible for the repair of all damage to property, landscape, walkways, or any structures or neighboring properties caused by the contractor's employees or equipment. The Contractor must notify the site manager or designee immediately in the event of causing damage to the property, i.e., buildings, sheds, paved areas, or the property of neighbors adjoining OPWDD property. The Contractor will be required to repair/replace damaged property within 30 days after weather permits. If the damage is not satisfactorily repaired within 30 days after weather permits, OPWDD shall have the repairs made and will bill the Contractor or reduce payment for the total cost incurred as a part of the OPWDD's repair effort.

If damage to lawn occurs, the Contractor must repair by replacing sod, top soil, and seed around the perimeter of sod; or use screened top soil, seed, and penn mulch, re-rake and roll, to return area to pre-damage condition.

The snow plow Contractor must complete all snow plow damage repairs by **April 30th of the calendar year**. If the repairs are not completed by April 30th, OPWDD may find an alternative Contractor to complete the repairs. The cost for these repairs will be billed to the snow plow Contractor that caused the damage. Failure to complete the snow plow damage repairs by April 30th may affect final payment, cause possible charge backs to the Contractor, and may affect the continuation of the snow plow contract. **Final payment of the season will not be made until the Business Office is notified that all damage has been repaired.**

If the Contractor causes damage to a staff or state vehicle, the Contractor must notify the Plant Superintendent and the Business Office (718-722-2710) immediately, or in the event it happened after hours, as soon as possible the next business day. The Contractor will be responsible to report the damage to their private insurance company and exchange insurance information with the staff person, if it was a personal vehicle.

Snow Removal/ Pushback

Only OPWDD Business Office Administration, on a case by case basis, may authorize snow removal with heavy equipment and the push back of snow banks, etc. These services will be considered outside the contract and must be billed separately. The site's current Contractor will be asked if interested in providing a quote for this additional service.

- A. If the site Contractor decides to provide a quote, and is awarded the work, (s)he will be responsible for all plow damage repairs at the end of the season, including any that may occur due to the snow movement process.
- B. If the snow plow Contractor decides not to provide these services and/or another Contractor is procured, safeguards will be put into place to clearly outline each Contractor's responsibilities in case there is substantial damage caused by another Contractor. It will be the responsibility of the other Contractor to repair any damage caused by his/her services.

Additional Requirements

At the end of the season, all **excess sand/ice melt material** must be removed from the premises at the contractor's expense. The Plant Superintendent will determine the presence of excess sand/ice melt material.

Contractor shall cooperate with the Plant Superintendent and staff. Contractor will comply with safety and security requirements imposed by the site. The use of drugs, consumption of alcoholic beverages, and/or smoking by the Contractor or any of its personnel shall not be permitted on agency property and grounds; Contractor will adhere to these and all other policies and regulations of OPWDD, including but not limited to parking, etc. Contractor is to adhere to local/state noise control ordinances/laws.

Contractor must provide a phone number for accepting calls 24 hours a day, seven days a week. This must be submitted with the bid and be available throughout the winter season. The OPWDD Business Office (718-722-2710) must be notified immediately of any phone number changes.

Contractor must possess and provide, at no cost to the State, appropriate licenses and permits associated with the provision of commercial snow and ice control services.
